ONTARIO USE OF FORCE THEORY

SECURITY TRAINING SOLUTIONS

Empowering people through knowledge.

ONTARIO USE OF FORCE THEORY:

Any person dealing with the public are potentially placed into difficult situations. These volatile situations require rapid reaction based on split second decisions. Often, incorrect decisions are made due to lack of training and confidence. *Use of Force Training* is the area of greatest risk to personnel and it is typically the most difficult to obtain.

Security Training Solutions offers low-cost training programs to increase safety and effectiveness for everyone. Our certified instructors can help your business and staff formulate educated decisions based on current Use of Force Theory, reducing the possibility of unnecessary negative encounters. Training includes theory and physical application of pressure point control and defensive tactics. Training is based upon the PPCT program which is internationally recognized and most importantly, court defensible because of the medical and scientific research conducted over several decades. Information regarding Ontario specific legislations and acts are added to make the course more relevant.

Certificates are issued upon successful completion of physical and practical examination.

For your scheduling convenience, training can be conducted on-site in as little as five hours.

Contact info@securitytrainingsolutions.com now to schedule your training needs.
