

SECURITY TRAINING SOLUTIONS: INSTRUCTORS

Our clients choose STS based on our vast course selection and outstanding instructors. Our Instructors are certified and have extensive experience including international exposure. They are nothing less than professional, yet entertaining at delivering all material. Do not miss an opportunity attend the best training in the world!

The PPCT Pressure Point Control System is internationally recognized because of its unique system design approach as one of the first subject control systems to adopt tactical, legal, and medical research.

This is an outstanding foundation and set of skills for both new and veteran Security/Law Enforcement Personnel that can be used alone or in conjunction with other Less Than Lethal and Use of Force protocols.

PPCT has long been recognized as a primary source of content for international and Canadian programs and represents a large part of the curriculum taught at provincial police colleges.

- STS offers numerous programs within the PPCT system.
- Our Instructors hold current Instructor level certifications within PPCT and other related programs, the same qualifications you will find at any police college.
- Courses can be customized to fit your need.
